

AUTOMATED INSPECTION SOLUTIONS

Powered by Metrologic's X4 i-Robot Software

IS YOUR QUALITY CONTROL HOLDING YOU BACK?

- Slow traditional inspection methods?
- Manufacturing too many defective parts?
- Suffering from skilled labor shortage?

TRANSFORM YOUR QUALITY CONTROL WITH QFP

WITH MORE THAN 20 YEARS' EXPERIENCE INTEGRATING 3D METROLOGY SYSTEMS, QFP CAN HELP YOU:

Inspect More

- > Expand your inspection coverage

Detect Issues Earlier

- > Identify deviations before they become costly

Reduce Labor Dependencies

- > Address workforce challenges through automation

Automatic Production Correction

- > The real Industry 4.0 application

SIMPLIFIED INTEGRATION WITH X4 I-ROBOT

QFP WILL INTEGRATE THE HARDWARE WITH METROLOGIC'S UNIVERSAL INSPECTION SOFTWARE.

All-in-One software

- > One software platform for streamlined operation and maintenance

Seamless Integration

- > Direct connection to robots and sensors for quality data capture

Advanced Analysis

- > Identify quality issues with robust analysis tools

Machining Information

- > Process adjustments based on measured data

COMPLETE PROJECT ACCOUNTABILITY

QFP delivers industry-specific expertise for aerospace, automotive, and defense across Europe with full project ownership from consultation through support.

“ QFP transformed our quality control and eliminated coordination headaches. »

- AEROSPACE MANUFACTURING DIRECTOR

YOUR FIRST STEP TOWARD INSPECTION EXCELLENCE

Schedule a consultation with QFP's trusted integration specialists today.
